

Center Tour

The Center Hour is from 6:30 am till 5:45 pm. We are Licensed and APPLE accredited- Accreditation is a voluntary evaluation process that Child Care Centers undergo in order to maintain standards of educational quality agreed upon by members of an accrediting body.

Our curriculum is The Creative Curriculum which highlights thematic units with a range of learning strategies and goals for preschool children.

Little People's Place provides all meals. Our menus are filled with food kid's love, and satisfy all applicable federal and state guidelines.

Preschool children explore the outdoor classroom daily, experiencing elements of the curriculum and nature using their five senses (weather permitting). Appropriate gross motor play equipment is available to enhance development.

Teachers are very responsive to the needs of the Preschool child and model appropriate language and social interactions. Teachers consistently engage the children in meaningful conversations at their eye level to stimulate critical thinking skills and self-expression. Second language opportunities are also encouraged with the implementation of both sign language and Spanish strategies by the Preschool teacher.

Parental communication is facilitated in a variety of ways; weekly communication sheets, family- teacher conferences, school festivals, curriculum nights, parent's night out and daily verbal communication at both arrival and departure times. Parents and teachers are also encouraged to openly communicate during the school day to discuss the individual needs of the Preschool child when necessary.

At Little People's Place, we are dedicated to providing the care and attention, love and learning, fun and safety that you expect from your childcare provider.
